

Profiles Laser & Medical Aesthetics

Helping You Age Gracefully

Skin is a marvelous thing! It's not only the body's largest organ but the first thing others see. Shouldn't you feel comfortable in yours? With this in mind, owner Lisa Grissim, R.N., Dr. Anthony Dallas and the team at Profiles Laser and Medical Aesthetics strive to help clients realize the incredible investment of caring for the skin.

Profiles Laser and Medical Aesthetics is a full-service medical spa offering advanced medical aesthetic services and procedures under the direction of Anthony Dallas, MD. Profiles provides the perfect solution for all skin types and concerns through skin care education, comprehensive consultations, facials, massage, laser hair removal, skin tightening, dermal fillers, ablative and non-ablative skin resurfacing, a full service hair salon and an extensive line of skin care

products. Profiles also offers a medically supervised weight loss program and bio-equivalent hormone therapy.

Profiles is committed to helping clients renew, rejuvenate and revitalize their skin by using the latest techniques without the gimmicks. Lisa says, "A lot of people are confused about their options. When you understand the technology, you make better choices. I love to teach people." Their goal is to help clients

What sets Profiles apart from its competitors is their commitment to ongoing training and experience with multiple technologies. All medical aesthetic treatments are administered by registered nurses under the direction of Dr. Dallas. Lisa says, "The beauty of advanced medical aesthetics is the ability to tailor treatments to each patient. With so many options, there is something to fit every individual need, including budget, commitment level and recovery time needs."

Clients of Profiles can benefit from the option of choosing to purchase a package of laser services. "A maintenance program provides clients with a discount for future services," Lisa adds. "If they invest money in caring for their skin, we want to help them maintain their investment."

Lisa Grissim, R.N.

age gracefully and to educate them regarding the available options to successfully reach their unique goals and needs. "We are not interested in selling a service to a client and never seeing them again," Lisa says. "We want to form lasting relationships with clients and rejoice with them as they experience the changes they desire."

Lisa Grissim, R.N., founded Profiles in 2008, after many years of experience in medical aesthetics. A 1986 graduate from Vanderbilt School of Nursing, Lisa is a Certified Laser Technician and a Certified Nurse Injector, specially trained in injecting dermal fillers and Botox. "We are humbled by the success we have had during our first year. Helping people feel good about themselves makes us feel good about what we do. It's a win-win!"
